We think young moms are special!

*Patient Information*
Welcome to the Teens With Tots Program, a multidisciplinary primary care program for very young parents and their children. We welcome mothers and fathers who are younger than 17 years old when they have their first child. We will provide care for you and your family until you are 21 years old. At that time, we will help transition you and your family to more traditional sources of primary care.

The Teens With Tots Program is part of the adolescent medicine division of Hasbro Children’s Hospital’s outpatient services. Our program’s team includes doctors, nurses, nurse practitioners, social workers and nutritionists. The team will provide well baby care and acute illness care for your child. We also will provide acute illness care and well adolescent care, including contraception and gynecology services, for young mothers.

We will work with you to help you and your family stay healthy and to help you stay in school.

The clinic meets on the lower level of Hasbro Children’s Hospital on Tuesdays from 1 p.m. to 6 p.m. and on Fridays from 9 a.m. to noon. If you or your child is sick and needs to be seen at another time, please call us and we will arrange for you or your child to be seen by another pediatrician. We provide 24-hour on-call coverage for phone calls. If you or your baby is sick at night or on weekends, there is always a doctor who can take your call, answer your questions, provide advice for care, and help you decide if you need to go to an emergency room.

The people in the Teens With Tots Program include:
- Patricia Flanagan, MD
- Denise Coppa, RNP
- Alcina Nickson, RN
- Kathy Cooney, MSW
- Barbara Loisel, receptionist

If you need to make an appointment, have a question about your appointment time, or need to change your appointment, please call Barbara Loisel at 444-4691.

If you have a question for the nurse, or think you or your child may need to be seen, please call Alcina Nickson at 444-4691.

If you would like to speak to a doctor at night or on a weekend, please call our answering service at 278-0272 and ask for Patricia Flanagan or the doctor covering the Teens With Tots/Adolescent clinic at Hasbro Children’s Hospital.

If you have an emergency, please call 911.
